OUR WORK

Selected Assignments

A snapshot of our recent work with international and national partners across Pakistan.

2018–2019

Nutrition International

End-of-Project Assessment: Scaling Zinc & ORS for Childhood Diarrhea

Data collected across 15 districts in Punjab and Sindh to assess outcomes of scaled interventions for treating childhood diarrhea with zinc and low osmolality ORS.

📍 Punjab & Sindh (15 Districts)

2018–2019

WHO

Equity Baseline Assessment of Islamabad — URBAN HEART Methodology

Assessed health-seeking behaviours and practices of communities in settled and slum areas across five sectors of Islamabad to launch a Healthy City Programme.

📍 Islamabad Capital Territory

2016–2017

WHO

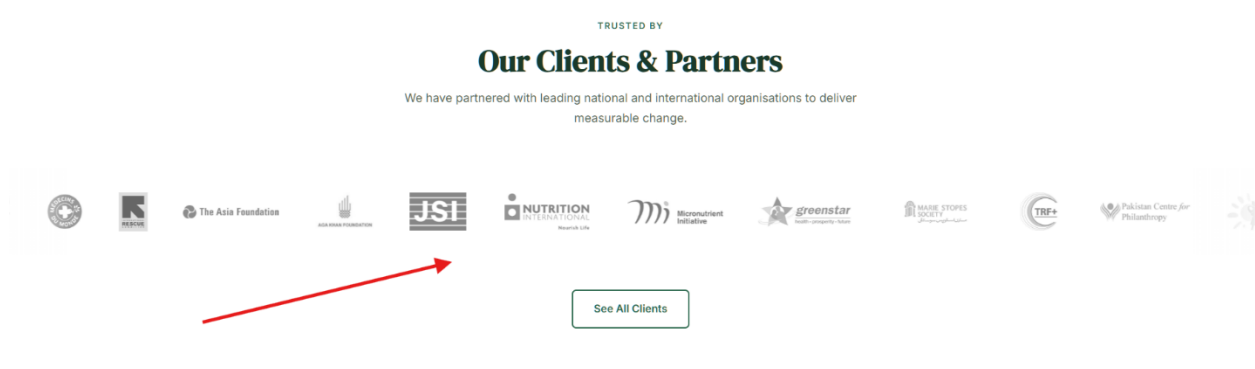

Evaluation of LHW Involvement in Routine EPI — 72 Districts

Evaluated 38,900 trained LHWs across 72 districts in all provinces. Mixed methods: 3,312 survey respondents, 303 IDIs and 36 FGDs conducted nationally.

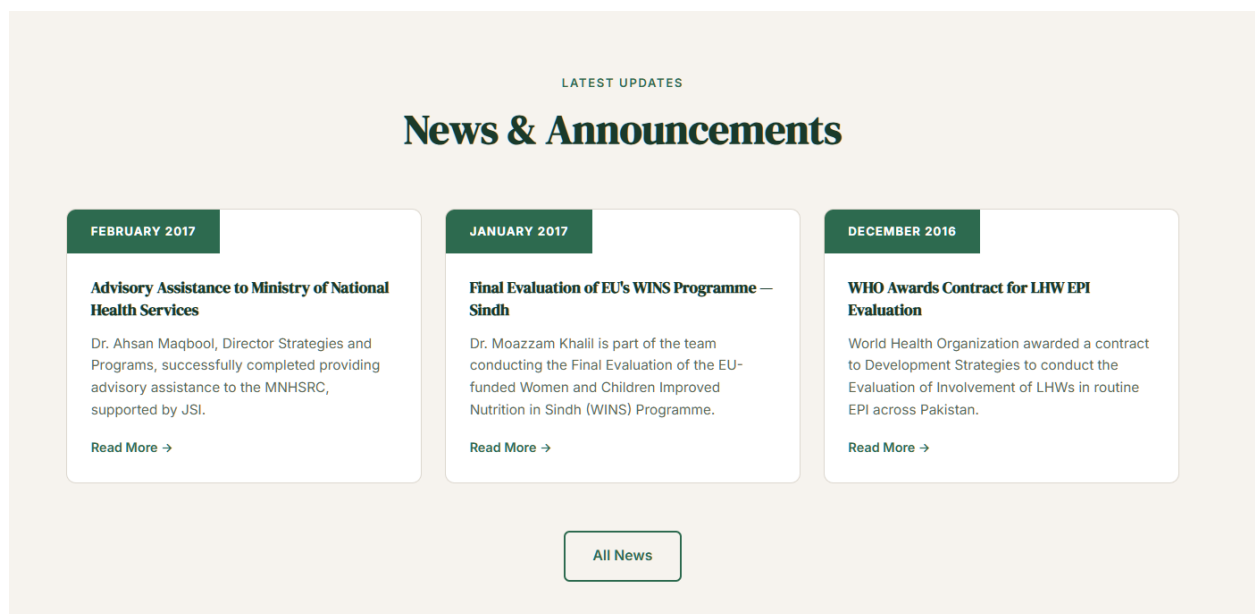

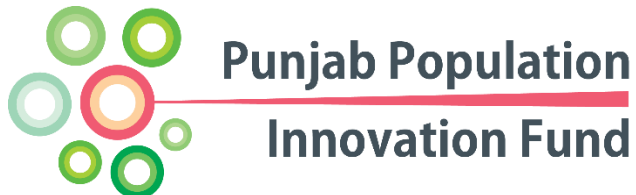

📍 AJK, Balochistan, KPK, Punjab, Sindh

Our Core Values

These values inspire every project we undertake and every partnership we form.

People-Centred

We are a people-centred business entity. The needs, rights, and dignity of the communities we serve are at the heart of everything we do.

Pro-Active & Learning

We are a pro-active, learning organisation. We invest our surplus in new technologies, people, and products that further our mission.

Evidence-Based

We are committed to an evidence-based approach in all our work  from programme design through implementation to evaluation.

Partnership & Collaboration

We place a high value on our partnerships with organisations, clients, fellow professionals, and the communities we work with.

Ethics & Integrity

We operate with the highest professional standards, maintaining objectivity, confidentiality, and transparency in all engagements.

Human Potential

We believe that people have potential, are willing to change, and only they can develop themselves. Our role is to enable that journey.

Who We Are

Development Strategies is a professional consultancy firm headquartered in Islamabad, Pakistan, with a regional office in Sukkur, Sindh. We are a multidisciplinary team of physicians, public health specialists, social scientists, educators, management experts, and development practitioners.

Our senior leadership collectively brings decades of hands-on experience across Pakistan's most challenging development landscapes — from remote rural districts to federal policy corridors. We have worked in all four provinces, Azad Kashmir, Gilgit-Baltistan, and FATA.

We are registered with the relevant regulatory bodies in Pakistan and operate under the highest standards of professional and ethical conduct. Our team has strong affiliations with national and international professional associations including the Royal Society for Public Health (RSPH), the International Health Economics Association (IHEA), and the South Asian Public Health Forum.

OUR ADVANTAGE

Why Choose Development Strategies

Deep Domain Knowledge

Our team has decades of specialised expertise in health, education, and social development across Pakistan's diverse geographic and socio-cultural contexts.

Methodological Rigour

We apply the highest standards of quantitative and qualitative research methodology — from sampling design to data analysis and reporting.

National Coverage

We have successfully operated in over 100 districts across all provinces, AJK, and Gilgit-Baltistan, with established field networks.

Trusted by Global Leaders

Our client portfolio includes WHO, UNICEF, USAID, UNDP, and leading INGOs — a testament to the trust placed in our delivery.

Innovative Approaches

We embrace technology-enabled data collection (CAPI), modern analytical tools, and evidence-based programme design frameworks.

On Time, Every Time

Our structured project management approach ensures deliverables are met on schedule without compromising on quality or rigour.

Expertise

1. AI Dashes

What We Are Equipped to Deliver

Our multidisciplinary team brings together public health physicians, epidemiologists, social scientists, management experts, and development practitioners.

01

Designing Programmes & Projects

Whether it is a research or a development intervention, a well-designed project is the key to achieving goals and objectives. Development Strategies has extensive professional expertise in designing research and development projects of medium to large scale tailored to specific needs and available resources.

02

Situational Analysis

Documentation of the prevailing situation is the essential foundation for any development intervention. This involves application of both qualitative and quantitative methods using carefully developed tools, managed by adequate professional staff. Our team has extensive experience in conducting such analyses across diverse geographic and social contexts.

03

Project Proposals & Grant Applications

A grant application that simultaneously meets the requirements of the donor agency and the implementing organisation guarantees a win-win outcome. We have professional expertise in writing proposals for private and public sectors including successful proposals for BMGF, Punjab government, IRMNCH PC-1, and more.

04

Planning, Implementation & Management

A comprehensive Implementation plan is three dimensional: activities with time, place, and responsibility assignments for each objective. Development Strategies has successfully developed, planned, implemented, and managed provincial to national level projects. We define clear roles and responsibilities across every level of Implementation.

05

Monitoring & Supervisory Systems

A well-designed monitoring system detects day-to-day issues during Implementation and enables timely corrective action. Our experts have developed monitoring and supervisory structures for provincial to national level programmes. We put in place systems that are practical, effective, and appropriate to the programme context.

06

Management Information System & Database Management

A well-designed MIS enables management to take appropriate decisions based on accurate information. Development Strategies professionals have developed MIS and district/provincial MIS dashboards for large-scale programmes, leveraging modern database tools and technology-enabled data flows.

07

Systems Analysis, Strengthening & Restructuring

When a system's outcomes are compromised, a thorough analysis of its functioning is required to determine factors responsible. Our team has acquired the skill set to conduct systems analysis and recommend either strengthening, restructuring, or a mix of both including management, healthcare, and administrative systems.

08

Evaluation

Evaluation extracts the values generated by an intervention and advises management on further improvements. Whether a mid-term evaluation or an end-of-project assessment, Development Strategies meets all requirements – from designing the evaluation framework through to conducting fieldwork, analysis, and final reporting.

09

Survey

Beyond tool development, survey planning demands pertinent sampling techniques, accurate sample size calculation, and proper inference to the population. Development Strategies manages the complete survey lifecycle: design, tool development, enumerator training, quality assurance, data collection (including CAP), cleaning, analysis, interpretation, and reporting.

10

Organisational Audit

When a mismatch occurs between organisational inputs (resources) and outcomes (objectives), a thorough investigation through an organisational audit is required. Development Strategies team has extensive experience in conducting organisational audits – identifying root causes, measuring efficiency, and recommending corrective measures.

11

Project & Programme Audit

Project audits identify the reasons for performance gaps and mitigate further damage. A timely project audit exercise identifies Implementation issues early, preventing escalation. Our team has extensive experience conducting audits for complex, multi-stakeholder development projects at district

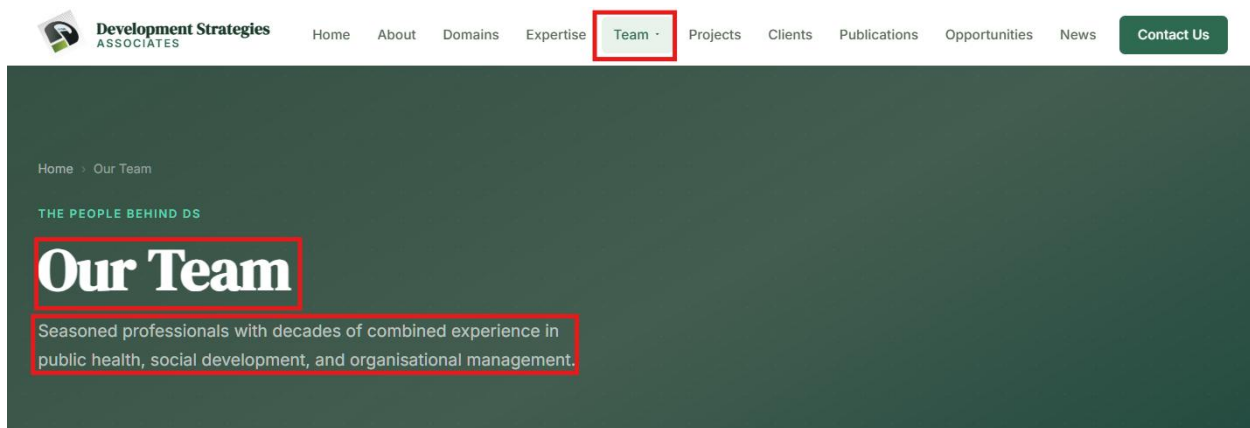

12

Development of Training Modules

Development Strategies training modules are developed in three complementary components: a Trainer's Module with detailed session-wise Instructions; a Trainee's Module with all relevant material; and a Presentation to facilitate the process. Modules developed include CMAM, Entrepreneurship, Job

LEADERSHIP

Management Team

Our senior leadership brings together expertise across medicine, public health, management, and development strategy.

Dr. Moazzam Khalil
Founder & Chief Executive Officer
MBBS, MPH

A physician by training with an MPH, Dr. Moazzam Khalil presents over 25 years of progressive community health and social development accomplishments. He brings creative leadership, programme design and implementation, systems restructuring, technical assistance to provincial health departments, strategic planning, management, and monitoring and evaluation expertise.

He has solid community health and development insight with the ability to analyse situations, conceptualise and plan new interventions, and streamline operations. With a keen eye for details, he moves effortlessly across all levels of management and stakeholders.

Dr. Ahsan Maqbool Ahmad
Director, Strategies & Programs
MBBS, MSc, PhD

A medical graduate with MSc in Epidemiology and Biostatistics from the Aga Khan University and PhD (Health and Community Services) from the University of Melbourne, Australia. He has worked extensively in project development and management for research, facility-based, and community-based healthcare intervention programmes.

His research and consulting areas include infectious diseases (TB, MDR-TB, Avian Flu, disease surveillance), reproductive and maternal and child health, and healthcare systems — covering services utilisation, primary health care, and policy evaluation at district, provincial, and federal levels.

Advisory Board (comes first after founder's section)

1. **Person:** William Frederick Shaw
 - a. **Popup picture, name and designation:** use same
 - b. **Popup information:** Formally educated in Ireland, England, and the US with majors in Business, Education, Political Philosophy, English Literature, and Public Health, Dr. Shaw acquired a doctorate in Public Health from The University of California at Berkeley. For over thirty-seven years he has worked in India, Pakistan, Ireland, Philippines, Germany, England, Swaziland, Papua New Guinea, Indonesia, The Gambia, The Sudan, Somalia, Solomon Islands, etc. He has been developing management systems, designing and managing projects in developing countries, making long and short-term plans, setting organizational goals and objectives, developing organizational rules, procedures and personnel policies, welding diverse staff members into high performance teams, designing and conducting epidemiological survey research, teaching at universities, interfacing

between governments of developing nations and development organizations. Currently he is heading Developing Indigenous Resources, a non-profit corporation, incorporated in California, USA. He has been Member of the President's Task Force for Human Development Pakistan, Member of the faculties of Health Science, and of Management at The Centre for Higher Education, and Diablo Valley College, (both in California) as well as the University of Phoenix, director of Pharmaceutical Development for a new US company, Neurobiological Technologies Incorporated; Associate Director for Project Concern International in Asia, The Pacific, and Africa. Awards: Citizen of The Year Award - UN Association of San Francisco, California (2010); US Purpose Prize Fellow - for Slum project in Punjab, India (2009); for humanitarian work (2008); Contribution to Education from UT Chandigarh, India (2007); Appreciation from the Pakistani Government for relief work after the October earthquake (2005); Excellence from the American College of Physicians for designing APPNA SEHAT program in Pakistan (2002); from the City of Bacolod, The Philippines, for reducing malnutrition in children (1975).

2. **Person:** Dr. Nasim Ashraf

- a. **Popup picture, name and designation:** use same
- b. **Popup information:** Dr. Ashraf has in depth understanding of issues of the developing world and has been passionately contributing towards resolving them. He conceived the idea of improving human development as the key factor in Pakistan's development, convinced the then government and established President's Task Force on Human Development in 2001 and served as the Team Leader. Afterwards he served as the Chairman of the National Commission for Human Development (NCHD) Pakistan and a Minister of State. He was also appointed as Chairman Pakistan Cricket Board by the President of Pakistan in October 2006 and was elected to the Chairmanship of the Asian Cricket Council in 2008. He has been Member of APPNA Advisory Task Force to Ministry of Health, Government of Pakistan (1982), Co-Chair Human Development Foundation of North America (1999), Chairman, APPNA-SEHAT, (1989-99); President, Douglas County Medical Society (1992); President, Association of Pakistani Physicians of North America (1987-88); Director, International Association of American Physicians (1988); Member of Board, PAK-PAK (1990-Present); Member of Board, Islamic Center, Eugene, Oregon (1982-87); Member of Board, Muslim Education Trust, Portland, Oregon. He was conferred Sitara-I-Imtiaz by President of Pakistan in 2006 for 30 years of distinguished public service; awarded UNESCO INTERNATIONAL AWARD for Literacy in 2006; earned a Gold Medal for the Most Outstanding Graduate of Khyber Medical College 1956-

2004 on occasion of KMC's Golden Jubilee; awarded Lifetime Achievement Award by Khyber Medical College Alumni Association of North America (2004); Star Man of the Year Award by South Asia Publications (2003); Recipient of American College of Physicians Linda Rosenthal Award (2002); Special Award from Fairfax County (2000), Virginia, USA for promoting Asian American Harmony.

3. Person: Douglas Blackwood

- a. **Popup picture, name and designation:** use same
- b. **Popup information:** Professor Blackwood earned his membership from Royal College of Physicians (MRCP), PhD from University of Edinburgh and membership from Royal College of Psychiatrists (MRCPsych) and is elected Fellow of Royal College of Psychiatrists, Royal College of Physicians and the Royal Society of Edinburgh. He has been Member of Scientific (Clinical) Staff, MRC Brain Metabolism Unit, University of Edinburgh; Registrar in Psychiatry, Maudsley Hospital and Institute of Psychiatry, London; Member of Scientific Staff, MRC Brain Metabolism Unit, Edinburgh and Senior Lecturer and Reader Psychiatry, University of Edinburgh. Currently he is Professor in Psychiatry, University of Edinburgh. Currently he is leading the Edinburgh psychiatric genetics group which has established a Tissue Bank of DNA samples and diagnostic information from over 7,000 patients, and their relatives, with major mental illnesses. One of the main strategies followed by the group has been to map genes disrupted at translocation breakpoints in patients with schizophrenia or bipolar disorder. This has highlighted a possible role for the genes DISC1, PDE4, GRIK4, NPAS3 and ABCA13 contributing to risk of major psychiatric disorders. The team is using whole-genome and exome sequencing technologies to identify causative genetic variants in large extended families multiply affected with schizophrenia or bipolar disorder.

4. Person: Jane Fisher

- a. **Popup picture, name and designation:** use same
- b. **Popup information:** Jane Fisher is Jean Hailes Professor of Women's Mental Health in the School of Public Health and Preventive Medicine at Monash University and a Professorial Fellow at the University of Melbourne. She has longstanding interests in the links between reproductive health and mental health from adolescence to mid-life in particular related to fertility, conception, pregnancy, birth and the postpartum period. She is Honorary Clinical Psychologist at Melbourne IVF and Chairs the Psychosocial and Epidemiological Research in Reproduction Committee at the Royal Women's Hospital in Melbourne.

5. Person: Dr. Tariq H Cheema

- a. **Popup picture, name and designation:** use same
 - b. **Popup information:** Tariq H. Cheema, a renowned social innovator and philanthropist, has devoted his life to making world a peaceful, equitable, and sustainable place for all. He is the founder of the World Congress of Muslim Philanthropists, a global network of affluent individuals, foundations and socially conscious corporations dedicated to advance efficient and accountable giving. He received his M.D. from the University of Istanbul, and earned a Certificate of Advanced Study in Philanthropy at Loyola University Chicago. He is one of the Rockefeller Foundation's prestigious Next Generation Leadership Fellows. His professional experience lies in the areas of strategic philanthropy, corporate giving, nonprofit governance and crisis management. Dr. Cheema ranks among the 500 most influential Muslims impacting the world today.
6. **Person:** Peter Hill
- a. **Popup picture, name and designation:** use same
 - b. **Popup information:** Peter Hill is a Public Health Physician and academic in International and Indigenous health. His key research interests are in international health policy and its translation into health systems and programs. His doctoral studies examined the evolution and application of international health policy during the early health sector reforms in Cambodia, focusing in particular on the Health Coverage Plan, the evolution of the Sector-Wide Approach for health development and the implications of international policy on the implementation of reproductive health programs. He has extensive international experience – in Nigeria, Cambodia, Lao PDR and Thailand, Mongolia, Papua New Guinea and Fiji, and has consulted for AusAID, the Australian Red Cross, the German Agency for Technical Cooperation (GTZ) and WHO. He has long standing collaborations with the National Institute for Public Health in Cambodia, the Institute of Tropical Medicine in Antwerp, and Health Development and Systems and the Department of Reproductive Health and Research, WHO, Geneva.
7. **Person:** Abul Hashem
- a. **Popup picture, name and designation:** use same
 - b. **Popup information:** A result-oriented senior management and business development executive with 35 years of experience in the design, implementation, and technical support of international health programs in about 50 countries; strategic thinker, innovative program designer, creative problem solver, skillful negotiator and excellent communicator; highly successful in new business development with USAID, CDC, Global Fund, multi-national banks and foundations; proven ability to mobilize, motivate and manage multi-disciplinary

technical teams for business development and client-focused project management; expert consensus and team builder; outstanding leadership, diplomatic, and organizational skills; proven ability in crisis management; prudent judgment and cultural adoptability; expert in creating and capitalizing on networks, management of people, stakeholders and relationships with the donors and partners, and capacity building.

Core Team (comes after advisory board), follow same styling as the advisory board with just picture, name and designation shown on page and rest in popup

1. **Person:** Mohammad Usman Khan, **Designation:** Managing Partner, Chief Executive Officer

a. **Picture:**

b. **Popup picture, name and designation:** use same

c. **Popup information:** Usman has a combination of strategic depth and cross-sector experience. Grounded in a background in Development Economics and various specialist trainings local and abroad, his career has been defined by one consistent thread of building systems that work and deliver. Over the past decade, Usman has worked across development, healthcare, business and aviation not as a generalist, but as a systems builder. He spent years working directly alongside the leadership of Development Strategies Associates before taking the role of CEO, learning the architecture of impact-driven project delivery

from the inside. Alongside this, he designed operational and management systems from the ground up for organizations as diverse as non-profits like Al-Jariah Foundation, private healthcare setups such as Orthoflex chain of clinics, and digital innovation organizations like Flip-it and EW. In aviation, along with flying, he contributed to high-stakes projects in security, safety and accident assessment for civil aviation where precision and accountability are non-negotiable, and where the cost of poor systems is measured in lives. Using this multi-sector lens to people centric human development and to every mandate the organization takes on ensuring that strategy is not just designed, but delivered, and that impact is not just intended, but measured.

Education & Trainings

(Hons.) Development Economics (PK), Certified Specialist Business Strategy (USA), Certified Specialist Data Analytics in Public Sector (USA), Certified Specialist Aviation and Commercial Flying (PK)

2. **Person:** Rahmeen Khalil, **Designation:** Managing Partner, Visual Communications Expert

a. **Picture:**

- b. **Popup picture, name and designation:** use same
- c. **Popup information:** With a background in Visual Communication Design and years of cross-sector experience, Rahmeen brings a rare combination of creative precision and strategic thinking to everything she builds. Her work sits at the intersection of design, communication, and impact translating complex development narratives into visuals that inform, engage, and move people to act. At Development Strategies Associates, she leads all communications design from project reports and data visualizations to social media and donor-facing materials ensuring that the work delivered is not just done well, but seen and understood.

Her ability to make technical content accessible without losing its integrity has become a quiet but critical strength of the organization. Beyond development, she has built and shaped the visual identity of organizations across two countries contributing to SpotlightGB in the UK, and delivering design and branding work for Human Design Studios, Digitalix Solutions, and Brandliners in Pakistan. As a consultant in user experience and design, she has helped businesses rethink how they communicate with their audiences from the ground up. She doesn't just design for aesthetics; she designs for outcomes. And in a sector where communication is often an afterthought, that distinction matters.

Education & Trainings

(Hons) Visual Communication Design (PK)

3. Person: Ali Shoaib, Designation: M&E Expert

- a. **Picture:**
- b. **Popup picture, name and designation:** use same
Popup information: With over two and a half decades of experience (25+ years) in effectively managing and excelling in various projects, as well as overseeing monitoring and evaluations, research studies, knowledge management, impact measurement, and learning systems within both international and national non-profit organizations, Ali has honed a solutions-oriented approach to his work. In his role, he successfully led Monitoring and Evaluation teams in the implementation of result-based monitoring frameworks. Additionally, he has

spearheaded the training of M&E professionals and enumerators for 24 large-scale survey and research studies throughout Pakistan. Furthermore, he has been instrumental in the development and execution of policies and tools dedicated to knowledge management, playing a pivotal role in the establishment of centralized M&E systems to ensure optimal efficiency and effectiveness in project delivery.

10. **Person:** Noshad Wazir, **Designation:** Provincial Coordinator KPK

- a. **Popup picture, name and designation:** use same
- b. **Popup information:** With over 14 years of progressive leadership in Pakistan's development sector, Noshad Wazir brings rare depth of experience across Khyber Pakhtunkhwa and the merged districts. His work spans some of the region's most demanding mandates from leading WHO's provincial health evaluations in coordination with the Director General Health KP, to managing IOM consultancies across Orakzai and Kurram districts, to overseeing a PKR 219 million programme portfolio under SRSP/PPAF. Noshad has delivered for some of the world's most respected development organizations including IOM, WHO, UNICEF, UNHCR, SRSP-PPAF, KfW, and the Bill & Melinda Gates Foundation consistently leading multi-district programmes, coordinating provincial stakeholders, and delivering measurable results in complex, high-pressure environments. His on-ground leadership of COVID-19 emergency response operations across five districts further reflects his ability to perform where it matters most. Fluent in Pashto, Urdu, and English, and proficient in digital data tools including KoBo Collect and Survey CTO, Noshad combines provincial-level strategic coordination with deep community-level understanding making him a trusted lead in every programme he takes on.

11. **Person:** Abdul Hanan, **Designation:** Provincial Coordinator Balochistan

- a. **Popup picture, name and designation:** use same
- b. **Popup information:** Abdul Hannan Barech is a seasoned development professional with extensive experience across project management, monitoring and evaluation, third-party validation, and emergency response in Balochistan

one of Pakistan's most operationally demanding provinces. His career spans some of the sector's most reputable organizations, including USAID-funded programmes, UNICEF, UNHCR, and the Pakistan Red Crescent Society. As Project Manager for the Balochistan Social Development Program, he led daily operations, managed stakeholder coordination, oversaw risk and security compliance, and delivered interim and final programme reports. As a Provincial Supervisor and Field Coordinator across multiple firms, he has managed third-party validation teams and large-scale socio-economic surveys covering districts from Quetta and Gwadar to Khuzdar, Turbat, Zhob, and beyond. His humanitarian credentials are equally strong having been deployed for emergency response during the Ziarat Earthquake, conducting rapid needs assessments and managing relief distribution under the Pakistan Red Crescent Society. Certified in Disaster Response, Psychosocial Support, and Gender-Based Violence response, Abdul Hannan brings both field depth and technical breadth to every assignment. Fluent in English, Urdu, Pashto, and Brahvi, he combines deep provincial knowledge with the communication range to operate effectively across communities, government, and international partners alike.

Projects

The screenshot displays a web interface for a 'Projects' page. At the top, there is a horizontal filter bar with buttons for 'All', 'Evaluation', 'Survey & Research', 'Health', 'Nutrition', 'Training', 'Monitoring', and 'WASH'. The 'All' button is highlighted. Below the filter bar, there are three project cards. Each card has a header with category tags (Evaluation, Health, Survey & Research, Monitoring) and a year (2025-26, 2025, 2025). The first card is titled 'Endline Evaluation: Scale-Up of Innovative Approach to Family Planning in LHW Rural Uncovered Areas, 2025-26' and is funded by PPIF. The second card is titled 'Baseline Study on Scale-Up of Male Engagement in Family Planning Program, 2025' and is also funded by PPIF. The third card is titled 'Third Party Monitoring — Punjab Family Planning Programme, 2025' and is funded by PPIF. Each card contains a brief description of the project.

Filter Bar: All, Evaluation, Survey & Research, Health, Nutrition, Training, Monitoring, WASH

Project 1: Evaluation, Health, 2025-26
Endline Evaluation: Scale-Up of Innovative Approach to Family Planning in LHW Rural Uncovered Areas, 2025-26
PPIF
End-Line Survey and Evaluation commissioned by the Punjab Population Innovation Fund (PPIF) to evaluate the effectiveness of the NOOR Call programme across ten districts of Punjab, Pakistan. Data collection completed July-August 2025, achieving a total household sample of 9,654 Married Women of Reproductive Age — a very positive response rate against the planned sample across all operational units.

Project 2: Survey & Research, Health, 2025
Baseline Study on Scale-Up of Male Engagement in Family Planning Program, 2025
PPIF
Baseline Study for the integration of male health workers and service providers in the family planning ecosystem in 3 districts (4 units) of Punjab. Provided PPIF with genuine insights into key indicators closely related to project interventions and reliable data to inform decision making.

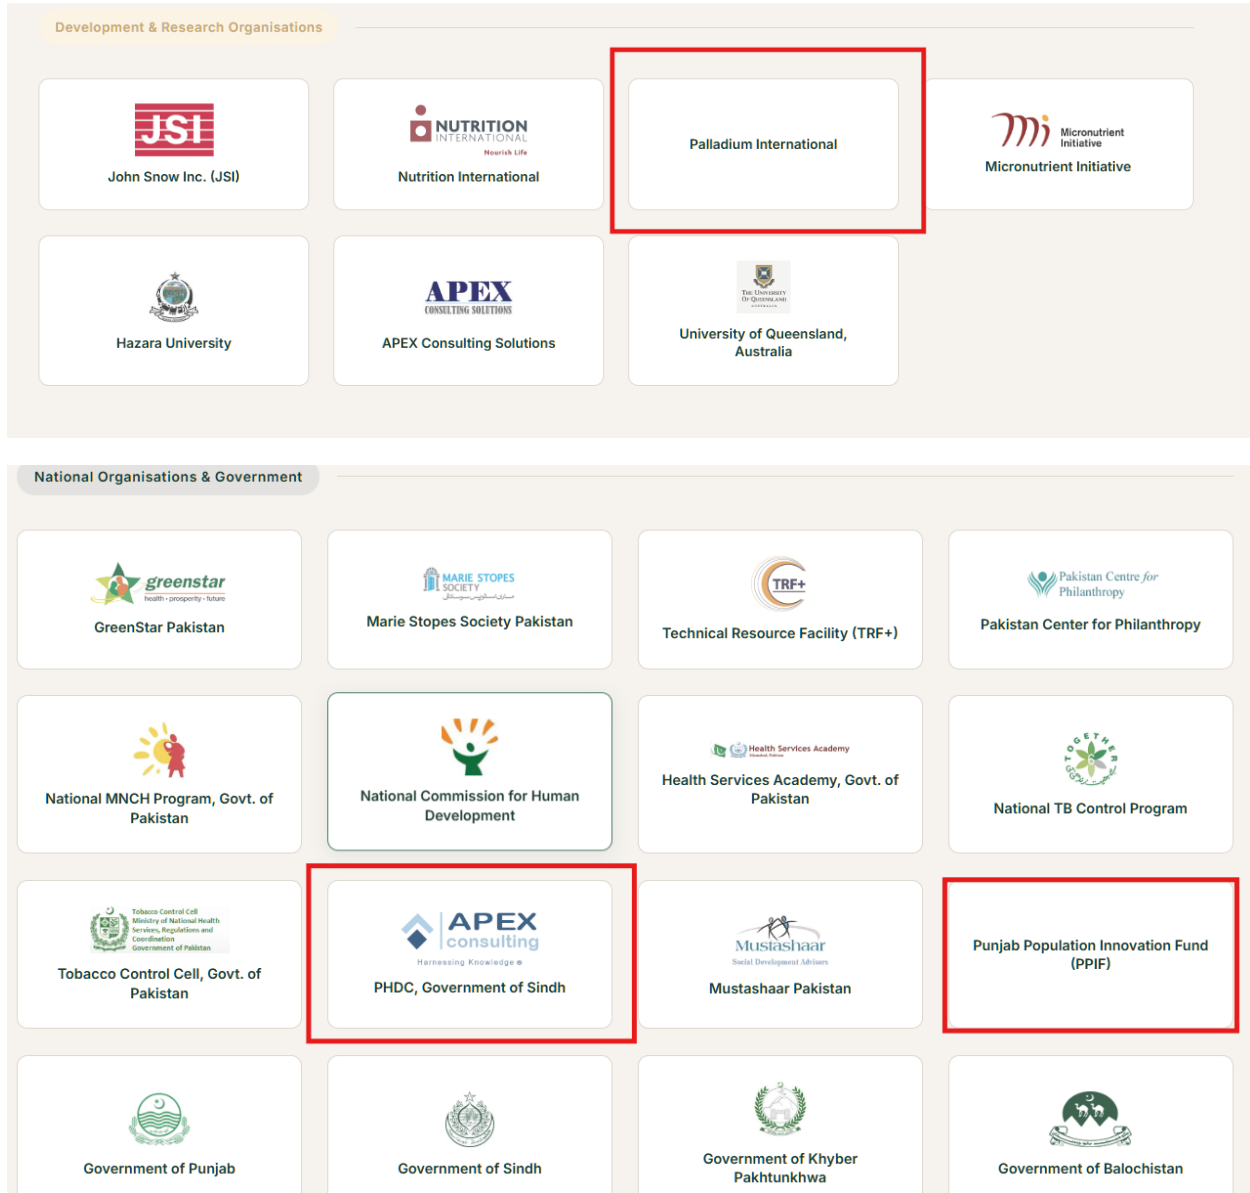

Project 3: Monitoring, Health, 2025
Third Party Monitoring — Punjab Family Planning Programme, 2025
PPIF

1. Projects page, the categories are misleading. They are interconnected and cannot be categorized separately

- a. Use 1-dimensional categories only: Evaluation, Survey & Research, Monitoring, and Training
- b. All projects are listed with categories below:
